

XPR Small Mass Comparators

Unrivaled Accuracy up to 10 kg

Unrivaled Accuracy

The innovative LevelMatic weighing pan eliminates corner load effects increasing the accuracy of your weighing results.

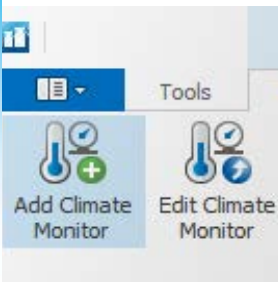

One-Click Certificate

The MC Link software automatically stores all your weight calibration data in a secure database. Calibration certificates can be issued with one click at the end of the weight calibration process.

Secure Data Transfer

The integrated USB and Ethernet interface makes it easy to connect to a PC or network. Data transfer to the mass calibration software MC Link is secure, fast and error-free.

Effortless Compliant

Sophisticated monitoring of metrological relevant parameters within MC Link helps you ensure your results meet regulatory requirements.

Small Platform Comparators

Offer High Precision and Versatility

METTLER TOLEDO's XPR small platform mass comparators offer the highest weighing accuracy for determination of mass up to 10 kg. The combination of the innovative LevelMatic weighing pan and a dedicated draft shield delivers unmatched accuracy and repeatability. The state of the art user interface enables intuitive and efficient operation whilst the StatusLight™ built into the front of the terminal provides at-a-glance confirmation that it's safe to weigh and your results are valid. Our proprietary MC Link mass calibration software is supplied as standard. Enter your process specifications and you can be sure of secure results, full traceability and regulatory compliance.

XPR small mass comparators are the perfect choice for high-precision mass measurement applications, mass determination laboratories and mass calibration service providers.
